

# InLine grille

**BOX FAN COIL UNIT**

**Public buildings**  
**Hotels**  
**Offices**  
**Hospitals**  
**Residential properties**

## **A harmonious and elegant solution**

- The grille fits in perfectly with standard suspended ceiling modules
- Enables the use of architectural colours in design

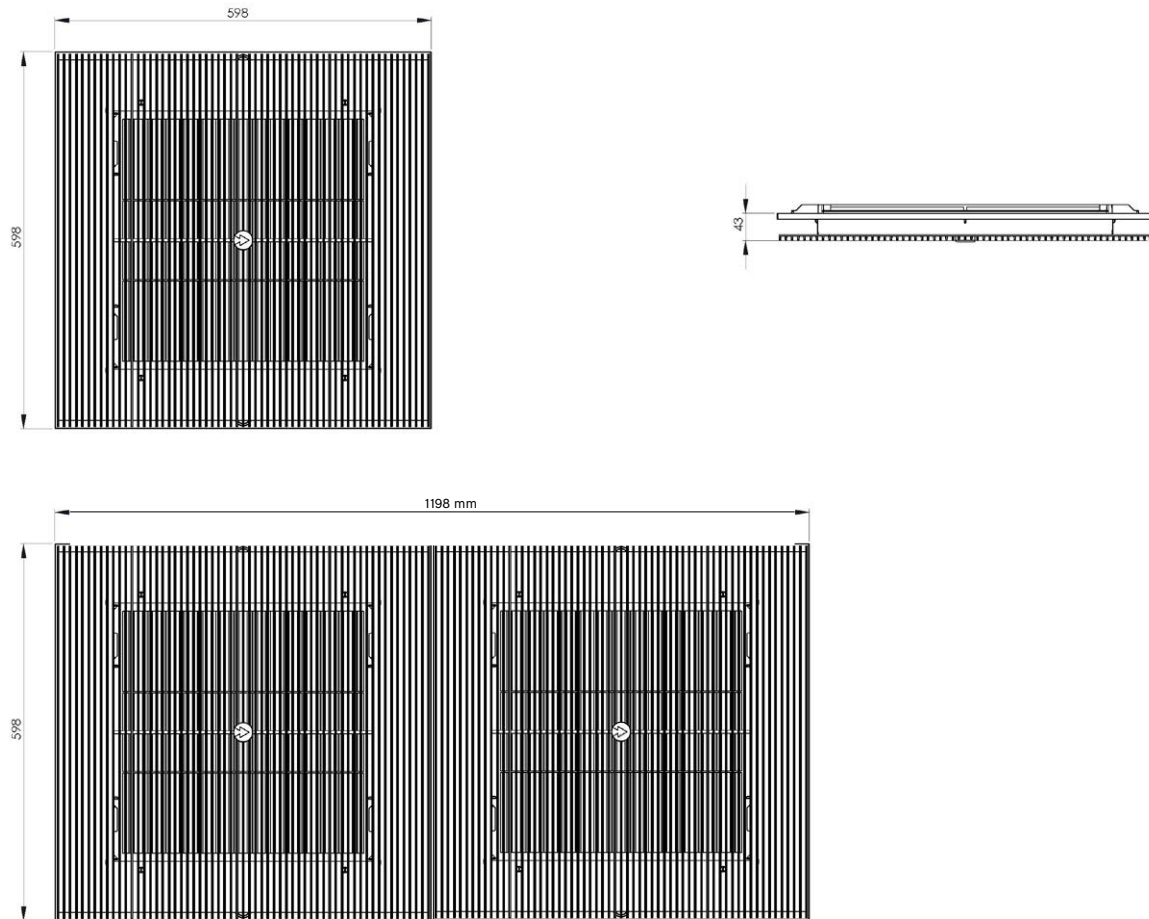

## **The quietest solution**

- Thanks to the solution's patented grille structure, the Coanda effect takes place even with low air volumes, ensuring draught-free cooling. In addition, the fan coil units are dimensioned for each space separately and controlled with a smart, automated system, resulting in the quietest solution available on the market.

## **Easy to position**

- Several airflow directions
- Available in two sizes: 600x600 and 600x1200
